"LITTLE PETE'S" HORNET NEST. Buckley, Judge Toohy and Stonehill Assert Their Purity.

SAN FRANCISCO, October 3d.—[Special.]—
In relation to the contempt case growing out of the re'urn of "Little Pete" from Folsom, Sheriff McCann says he railroaded Pete because he knew him to be a dangerous man, and was afraid that if he kept him here he would corrupt the officials bringing him back from Folsom. He did every-thing under the direction of Menzies, Fore-man of the Grand Jury, and did not allow anyone to see the prisoner. He did not personally have the papers taken from the Chinaman's safe on a search warrant.

Judge Tooby, when asked as to the truth BETWEEN J AND K, SACRAMENTO.

The statement made by "Little Pete," that he had made him a present of \$2,400, said it is untrue; that he cannot be approached, and he defied the world to imput his official intensity.

bounh his official integrity.

District Attorney Stonehill branded the statement that he received a present from Little Pete" as a foul falsehood. Buckley denies in general and positive terms having had anything to do with Pete's case. The \$4,500 he is charged with receiving he says was Lowenthal's fee. He admits having received dispatches about the case. He says the whole matter was instigated by Mowry, a personal enemy, and by a newspaper, because he gave some of the Democratic patronage to the Alta.

Choate, the celebrated New York lawyer, Time. 1:30 who is lying at his father's cottage in Stockbridge, at the point of death, from injuries received at the hands of the sophomores of Williams College, of which Choate was a freshman. He is a delicate lad, weighing only 125 pounds, and entered last month. He early won the ill-will of the sophomores by his success in the numerous ushes, in one of which he knocked down hree sophomores in rotation, allowing the

reshmen to win. Three nights since, while in a fellowstudent's room, a score of sophomores made Choate a prisoner. He was compelled to submit to a number of indignities, after which he was forced to sing, dance and pose at the will of his tormentors, who wound up by taking all his clothing and putting it to soak in a bucket of water, regardless of the contents of the pockets He was then made to get in a bathtub, given toothpicks and compelled to imitate rowing, singing "Pull for the Shore," while ice-water was slowly poured over him. He was then taken out, and without being dried put into his wet clothes and sent back to his room. He was found raving in a high fever the following morning and at once removed to his father's house. that two such powerful nations as France and Germany should maintain such indifferent boundary posts for their half-hundred miles of topographically undefined mutual border. The boundary monuments are small stone posts set in thick woods, and half or wholly hidden by undergrowth; or, are wooden finger-posts that the winds blow over and the storms render undistinguishable. Hence, it is very difficult for one to tell, when near the boundary which samply pass through the greatest value of termasactions will be in those articles which simply pass through the greatest value of termasactions will be in those articles which simply pass through the greatest value of termasactions will be in those articles which simply pass through the city. The San Francisco Argonaut is amazed cult for one to tell, when near the boundary, whether he is on French or German soil. Out of this difficulty have arisen the unfortunate events that have been made tragic by the shooting of human beings by German border customs guards. The suggestion that a half-mile of neutral ground each side the line should be laid off, is an excellent one, but better still would be the building of a continuous low stone wall that cannot be mistaken.

It is one of the curious facts of history that great nations, from which we naturally look for wise action, in similar cases take less of care and precaution than the owners of private property. So, too, in Trustees are respectfully requested, if such vot is favorable, to proceed with the suit for cor many of their business relations, nations permit neglect, commit errors, and are indifferent to methods, which, in the com monest commercial business are deemed indispensable. As a single instance, near at home, in our own State the checks upon the fee system in State offices are such as would not be tolerated between the business departments of a jobbing house, or in the most ordinary retail establish. ment for an hour. Several Legislatures have had their attention drawn to the fact, and though capable men have filled most State offices, the simplest application of business principles has not been attempted to prevent peculation under the fee sys-

It is no more amazing that Germany and France seem to be paralyzed in the face of the problem how to mark a short boundary line unmistakably, than that a great American State proves incompetent to apply the simplest rules of bookkeeping and business to its fee system.

APARTMENT house landlords in New York have at last hit upon what they deem a successful plan for circumventing deem a successful plan for circumventing the moving tenants. The latter have been accustomed to move out of the flats on the first of May, store their furniture for the summer, and take their chances of renting on return from the country. To defeat this sharp practice, "flat "owners have now resolved to rent only on leases running" found that they were, for the time at least, without an occupation, as with the rise in values syndicates and individuals bought for subdivision a number of tracts throughout the country. This movement, we are pleased to say, still continues, and your committee, finding its objects so successfully accomplished without push or solicitation on their part, have reserved their energies until such time as they would seem to be needed or advisable in special instances or general work. When that time arrives the committee will be found with its shoulder to the resolved to rent only on leases running from October to October, thus compelling the tenant to carry the rental for the year. The result may prove temporarily successful, but it will not long obtain. The tenant will so vigorously protest that the result will be a great demand for suburban residences. There will then come about a complete reversal of the order of things. The New York tenant of moderate means will rent for the longer term a country house, and make the city sojourn of his family a winter flight only. The owners of flats will be compelled to meet the new demand or let their houses go tenantless. It is gratifying always to find the drift of population setting out of great cities and towards suburban parts. Life in a large city, at the very best, is not and never can be so desirable as in the unconfined rural regions. The American people are more and more acting upon this truth, and making cities only temporary abiding

THE Zalinski pneumatic nitro-gelatin gun in its recent tests proved that it will throw the terrible explosive which gives its name to the gun, a fair distance and explode with such force as to destroy a first-class ship of war. What has not yet been demonstrated is that it can be safely worked or fired with any considerable degree of accuracy, or that it can be used at long range. But the tests made and the improvements being worked out are sug gestive of caution in constructing our coast and harbor defenses. These must be pro vided, but it becomes important to learn whether such weapons as the Zalinski gun will not make mere protective works, such as we now have knowledge of, useless. It does seem that wisdom dictates abandonment of all thought of great forts and mighty works, and instead the devotion of the money and energy of the Naval Department to the perfecting of guns that will make us safe against assault.

THE hope is strongly maintained by probability that the cholera in the lower bay of New York harbor will be confined to that locality, for this season at least. But the experience of Europe has shown that under the most severe stamping out process the germs may remain and develop year or two thereafter. It is therefore the caution of wisdom on the part of every community to clean up now and to keep the cities and towns scrupulously clean all winter, spring and summer. The Cleveland Leader says there is but one way to fight the cholera and that is to destroy by fire or burial all table, kitchen or other refuse and to keep as clean as possible and thoroughly disinfected all drains, cesspools | the Association rooms at 3 P. M. Thursday, and vaults. What it urges upon its people applies as well to those of this coast.

THE bid of the Democrats of New York for the vote of the labor party will scarcely prove effective. The platform demands that not more than ten hours shall constitute a day's work, and that pay days shall be weekly. The labor party has demanded eight hours and a weekly pay-day. The by inward application, and not by outward Democracy is, therefore, not extreme enough to satisfy the workingmen' organenough to satisfy the workingmen' organization, and the eleventh-hour demand for frequent pay-days will not recall the seculing votes back to the Domestican. The ceding votes back to the Democracy. The Democratic party in New York will lose 75,000 votes, and there is no help for it.

IMPROVEMENT ASSOCIATION. Monthly Meeting-Reports of

Sub-Committees The regular monthly meeting of the Ex ecutive Committee of the Improvement Association was held at their headquarters last evening. After the calling of the roll and the reading of the minutes of the pre vious meeting, the various sub-committees were called upon to report. Several of them submitted written reports, and others made statements of progress, and all were granted

THE PUBLIC MARKET. Frank Miller submitted the following which was adopted :

The committee on the filling of the slough and the establishing of a market desire to report to you that much valuable time has gone by with out any definite steps taken toward securing the two half blocks on the north side of I street for a market we believe that our citizens fully appreciat

dents. In process of time the greatest value of the transactions will be in those articles which simply pass through the city.

We need this place as much or more than cotton-markets are needed in the South.

It is important that the citizens should act in this matter promptly. The City Trustees have found that the only way to effect the object is to call a vote of the people on the proposition to levy a tax, or incur a debt, sufficient to pay for the land at a price which shall be established by the Courts under a process for condemnation. This process will require six months' time, therefore it should be begun immediately. The vote of the people is to be preliminary to that, therefore we offer the following resolution:

WHEREAS, It is desirable that a public market shall be established on the two half blocks adjoining the north line of I street, and between Third and Fifth streets: therefore

Resolved, That the Citizens' Improvement Association do hereby respectfully request the City Trustees to take a vote of the people, as prescribed by law, upon the question whether or not a tax shall be levied for a sum sufficient to pay for said half blocks, after they are condemned for public market; and, also, the City Trustees are respectfully requested, if such yote is favorable, to proceed with the suit for con-

demnation as fast as possible LARGE LAND GRANTS. David Lubin submitted the following which was read and placed on file Your sub-committee on the Subdivision of arge Land Grants, beg leave to report as follows:

After the neglect on the part of the County Assessor to properly assess the large land grants throughout the county, the committee, it will be remembered, at your request, appeared before the County Board of Supervisors sitting as a Board of Equalization, and presented an array of facts and figures clearly showing the glaring inequality of assessments throughout the county, particularly in the case of large holdings, and asked that the Board properly equalize the assessments complained of. The Board promised to attend to the matter but adjurned three weeks afterwards without having even examined into it. The correctness of the Board promised to attend to the matter but adjourned three weeks afterwards without having even examined into it. The correctness of the position taken by the Association in these assessments was clearly demonstrated a month later, when the State Board of Equalization raised the entire county roll ten per cent. Thus, through the gross neglect of duty of the Board of Supervisors, were the taxes on small holdings, already disproportionately taxed, increased still more. After the adjournment of the County Board of Equalization your committee outlined a work by which it hoped to interest outside capital in the purchase and cutting up of large holdings as a business speculation. The owners of the San Juan grant were interviewed, with a view of ascertaining just what they would be willing to do in the way of disposing of their land, and correspondence was had with Governor Stanford, in the hope of interesting the Southern Pacific Company in the purchase and subdivision of the Rancho Del Paso. Just at this time commenced the boom in city and county real estate, and your committee soon found that they were, for the time at least, without an occupation, as with the rise in values syndicates and individuals bought for subdiv

In corroboration of the statements above made and as illustrating how general is the move-ment in sub-division of land the following facts are offered: NATOMA TRACT. The Natoma Company, who own a solid piece of 8,000 acres, has already announced its intention of cutting up such portion as is not cultivated by it. One thousand acres have already been selected for sale, and as soon as the surveyor has accomplished his work, already ordered, the land will be placed on the market in 20 and 40-acre tracts and sold with the necessary water rights at anction

sary water rights at auction. ORANGEVALE.

The western portion of the Cardwell tract together with lands adjoining—in all 2,400 acres—has been purchased by the Orangevale Colonization Company and will be cut up and sold on the same plan as the Thermalito Colony. The old railroad from Roseville to Folsom, which passes through the colony, will be relaid in whole or in part. A town site has already been selected and fifty acres of deciduous and citrus fruit trees and vines, it is understood, will be set out this winter to show what the land will do. The company has secured a perpetual contract for sufficient water from the present owners of the old Birdsall ditch, Messrs. Smith, Clark and Williams.

SAN JUAN GRANT. ORANGEVALE.

SAN JUAN GRANT. The San Juan Grant, although not yet trans ferred is, it is understood, being negotiated for and the ditch above referred to has beer bonded, presumably to be extended on to the grant for irrigating purposes. FAY TRACT.

The Fay tract of 4,000 acres, twelve miles be-ow the city, has been bonded by a syndicate or the purpose of subdivision. WINTERS TRACT.

The Winters tract of 1,000 acres, about four miles south of the city, has been sold to mone ed syndicate, and will soon be placed of the market. The Doyle tract of 130 acres is a ready being sold out in small subdivisions.

WHITAKER & RAY'S TRACT. Whitaker & Ray own 6,731 acres near Hicks rille and Clay. Arrangements are now bein nade by them to cut up the same and sell it i mall pieces, with water for irrigation which is a proposed to being in in an pieces, wan water for irrigation which it is proposed to bring in.

In addition to these tracts are a number of maller tracts bought for subdivision, which are either now on the market or are about to be blaced thereon.

It might be added that the proprietors of the mander and Secrement County Contracts here.

It might be added that the proprietors of the Amador and Sacramento Canal Company have bonded large tracts of land to be sold in small pieces with water from their ditch. Also that claim has been filed for 80,000 inches of water to be taken out of the American river and carried in a canal through the county; that a surveyor is now at work choosing the most practicable route; and that arrangements are being made with each land owner along the proposed canal to cut up a portion of his holding. Also that parties connected with the Sacramento and Placerville Railroad are bonding large tracts of land along the road for the very evident purpose of subdivision. Your committee can, therefore, report good progress in the work for which it was selected, though it be true that the results are not due to their own efforts, but almost entirely to outside influences. The effects, however, will be none the less pleasing to your Association and to the county at large.

THE WILLIAMSON WELLS. C. K. McClatchy, of the Committee on Water and Water Works, reported that they had given the Williamson wells, nea the County Hospital, a 54-hour test. They pumped from 450 to 500 gallons per minute and averaged 72,000 gallons per hour, or from one-third to one-seventh as much as is used by the city, without any apparent liminution of the quantity. The water is clear, of good quality, has a temperature of 18° Fahrenheit and is said to compare favorably with the Sacramento river water.

The following names were added to the Committee on Manufacturing Interests:
Wm. B. Miller, Wm. Boyne, W. M. Shaw, Holland, Dr. Pinkham, A. S. Hopkins M. Milliken, and J. T. Griffitts. The Committee on Driveways and County Roads, L. Fassett. Chairman, will meet in October 13th.

GENERAL NOTICES.

Hay Feyer.—I have suffered greatly from periodical returns of hay fever. At the suggestion of Covert & Cheever, druggists, I obtained Ely's Cream Balm, and used a portion of it during a severe attack. I can cheerfully testify as to the immediate and continued relief obtained by its use. I heartily recommend it to those suffering from this or kindred complaints. fe8-ly (Rev.) H. A. GRATEFUL-COMFORTING.

"By a thorough knowledge of the natural iaws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately-flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

HIGHLAND PARK TRACT,

--OF THE-

275 LOTS!

ARMORY

SATURDAY, At I o'clock, P. M.

ST SEATS RESERVED FOR LADIES. TO The HIGHLAND PARK TRACT is situated at the city line on Y street, and will be reached in less than sixty days by Street Railway from junction with City Railway at O street: franchise has been granted and work now in progress. The ground is high and drainage excellent. Its fine elevation gives sufficient guarantee of absolute freedom from Spring overflows and malaria. Streets are eighty feet wide and alleys twenty feet-a most inviting feature. CITY WATER is guaranteed to be on the tract WITHIN NINETY DAYS. PURE AND COLD WATER is had at a depth of thirty feet, if desired. Gas or Electricity will be introduced as

soon as actual building justifies it. NO CITY TAXES!

As the property lies just over the city boundary, persons of small means will thus possess all privileges of city life without its burden of cost. The proposed Electric Railroad passes the property, and it is needless to direct attention to the great enhancement of value which the completion of this line will bring. At Los

Angeles a similar road added four-fold to all adjoining lots.

HOMES WILL BE BUILT For persons desiring it, after Lots are paid for, on most favorable terms; payments thereon to be made in installments at 7 per cent. interest. TERMS OF SALE: Ten Per Cent. at fall of Auctioneer's hammer;

balance of one-third in ten days; remaining two-thirds in monthly installments of \$10 and \$15, with 5 Per Cent. interest.

Please remember a Five-cent Fare will, within sixty days, take you to the Tract from the Depot or Postoffice within thirty minutes.

CITY TRUSTEES.

Monthly Reports of City Officials - More Street Improvements.

The City Trustees met yesterday morning, all the members present. Reports were received from the various departments of the city government.

73 "lodgers" had been accommodated. The clerk of the water-works reports that in the last six months \$30,268 75 were collected for water rates. G. A. Putnam, City License Collector, reported that \$7,239 were collected for city licenses. Mayor Gregory stated that he had tried

to communicate with the parties owning the property on I street that is desired for a market, but had received no answers to his inquiries, consequently the matter was laid over for one week. A. J. Wilson, Superintendent of Ceme

teries, reported twenty-seven deaths during the month, and twelve bodies brought here for burial. He collected for the sale of lots and permits \$240 50.
Resolutions of intention to grade and

improve 8, T, U, V, W and X streets, from Twenty-eighth to Thirty-first; also, Thir-tieth, from P to Y, and Twenty-ninth, from S to Y, were passed.

Mayor Gregory remarked that he had cited Con. Sullivan to appear before the

Trustees to hear complaints which had been placed in the hands of the Trustees. Mr. Sullivan not appearing, Mayor Gregory read the charges, which were in form o affidavits. One, signed by Charles Wood-ruff, alleged that in March, 1886, he had purchased from Sullivan an old horse for \$90. It is alleged that but \$50 of the money ever reached the city treasury.

J. W. Grace, in an affidavit, swears that in the same year he sold a black horse to Con. Sullivan and S. J. Jackson for \$200. It is stated that \$250 was drawn from the city treasury to pay for the animal. The entire matter was referred to the City Attorney and the Board of Fire Comaissioners for investigation.

Mr. Hoitt, who resides on Ninth and Y treets, made a demand on the treasur for \$50, for damages sustained by the overflow of his lands. The matter was taken under advisement.

James Touhey assigned his contract for grading M street, between Fourth and Unapportioned fund...

A Good Man to "Bounce." An essential for a paid fireman of the

city is sobriety. More especially should those given commands be clear-headed an possession of unclouded faculties. Richard Corsaw, who is Foreman of the Hook and Ladder Company of the Paid Fire Department, and under the Slater-Dedu Conran regime claims to be Assistant Chief Engineer of the Department, has demonstrated his entire fitness for immediate discharge This man on Saturday evening was in an admirable physical and mental condition to manage the extinguishmen of a conflagration, or to command a body of courageous and willing men, as the facts prove. Full of alcoholic benzine, he went out upon the chief highway of the went out upon the chief highway of the city about 5 o'clock, seeking whom he might devour. The story is that he had several fistic encounters before that hour, in most of which he came off triumphant. This inspired him with the courage that whisky invokes, and at Fifth and J streets he encountered a mild-eyed son of Israel, who with peaceful intent began to compliment the entire fire department, saying the whole lot, engineers and all the officers, were "good men." This broadly conservative disposition angered Corsaw, and he assaulted the man whose legs forbade harm to his body. Inual financial statement, as follows:

OFFICE OF THE COUNTY AUDITOR,
SACEMENTO, Cal., October 3, 1887.}

To the Honorable Board of Supervisors of the County of Sacramento—Gentiemen: In accordance with the provisions of Section 52 of the County Government Act of 1883, I hereby submit my annual financial statement, showing the midebtedness of the county both funded and floating, the amount of each class of bonds, and the rate and amount of interest paid thereon, the amount of cash apportioned to each fund now remaining in the County Treasury, the total valuation of property of the county to taxable purposes, as shown by the assessment rolls, the total revenue received by the general and hospital funds during the fiscal year ending June 30, 1887, and the aggregate expenditure from those funds during the same period, together with such other facts and estimates as you may require in determining the amount of money neared.

CLASS OF BONDS.	Amount.	Rate.	Annual Interest.
Bonds of 1859 Bonds of 1872 Bonds of 1884 Bonds C. P. R. R.		8 per ct.	\$15,798 17,600 4,500 6,200
Total	\$660,800		\$44,098

Eleven thousand dollars of the bonds of 1884 were paid January 1, 1887, and an annual reduction is necessary in order that the debt may be extinguished when due. I deem it proper to call your attention to the fact that the outstanding benefits to the fact of 1850 repurpose that the contract of 1850 repurpose th ing bonds of 1859, numbers one to 181, inclusive, amounting to the sum of \$84,300, and bearing amounting to the sum of \$84,300, and bearing interest at six per cent per annum, will be due and payable on February 1, 1888, and as no provision for their payment has been made, it will be necessary for you to adopt some measure to provide the necessary money. I presume that the simplest and wisest plan will be to refund this indebtedness by issuing new bonds at a low rate of interest, and if this is to be done, the probable rate of interest at which the new bonds can be sold at par should be ascertained before January 1st next, in order that the necessary advertising of the sale of the new bonds may be made and the issue completed before February 1st. February 1st.

The floating debt of the county is as follows:

Deducting the railroad assessment, upon which the collection of tax is improbable, the amount on which to base your estimates is found to be \$29,690.941.

The receipts and expenditures from the general and hospital funds during the fiscal year ending June 30, 1887, were:

| General | General | \$96,903 | 03 | Total expenditures | 73,526 | 60 | \$49,769 35 36,174 21

With the eash balance now on hand, and estimating the probable receipts and expenditures for the period to elapse before the revenue from the present levy will commence to be paid in, I am confident that a surplus of about \$14,000 will be left on the general fund. Adding to this the sum of \$29,000, as the probable revenue from license collections and other sources, a balance of \$23,500 remains to be raised by tax for this fund.

Charlotte Randow's Testimony. New York, May 3, 1887. Swift Specific Company, Atlanta, Ga.: Swift Specific Company, Atlanta, Ga.:

Gentlemen—Having been annoyed with pimples, eruptions and roughness of the skin from bad condition of my blood, for more than a year, I used a leading preparation of sarsaparilla and other advertised remedies to no effect. Then I consulted a prominent physician, and from his treatment received no benefit. I then concluded to try the S. S. shows that the estimates of heavy emigra-tion for this season were not in the least degree exaggerated. The time of one train a day on the Central Pacific has now gone past, for the west-bound overland now leaves Ogden in two and sometimes three and four sections. The Cook tourist party left Chicago in a train in four sections of ten cars each, and to show that these pro-portions are by no means abnormal, it is stated that another excursion train has just left Chicago in five sections. Liver Complaint

Is more surely and speedily cured by the icine produced a radical cure. - Wm. E. Baker, 155 W. Brookline st., Boston, Mass. A Remarkable Cure.

Ayer's Sarsaparilla has cured me of 28 bad a case of Abscess of the Liver as any human being could be afflicted with and live. I was confined to the house for two years, and, for the last three months of years, and, for the last three months of that time, was unable to leave my bed. Four physicians treated me without giv-ing relief, and, in fact, nothing helped me, until I tried Ayer's Sarsaparilla. After using a quarter of a bottle of this medi-cine I began to feel better, and every additional dose seemed to bring new beattle and strength. I used three bottles health and strength. I used three bottles, and am now able to attend to my business. I walk to town—one mile distant—and return, without difficulty. Ayer's Sarsaparilla has accomplished all this for me.
